https://www.linkedin.com/in/sankalp-raj-singh-78a628208
Pune, Maharashtra

SKILLS

- ASP.NET Core / MVC / Blazor
- AWS Solutions Architect (SAA)
- Cloud Architecture & IAM
- JavaScript / CSS / HTML
- SQL Server & Query Optimization
- Entity Framework Core
- REST APIs & System Design
- Embedded C / RTOS / IoT
- Azure DevOps / Git
- Agile / Scrum
- Business Analysis
- Client Communication

CERTIFICATIONS

- ✓ AWS Certified Solutions Architect – Associate
- ✓ C# (.NET 6/7/8)
- ✓ Object-Oriented Programming
- ✓ REST APIs
- ✓ Entity Framework Core
- ✓ SQL Server
- ✓ Database Design & Optimization

EDUCATION

B.Tech — Electronics & Instrumentation
Silicon Institute of Technology, Bhubaneswar
CGPA: 8.04 / 10 | 2019 – 2023

Senior Secondary (12th) – CBSE
Keshav Saraswati Vidya Mandir, Patna
Marks: 59.6% | 2019

Secondary (10th) – CBSE
Litera Valley School, Patna
CGPA: 8.2 / 10 | 2017

PROFESSIONAL SUMMARY

Results-driven Software Developer with 3+ years of experience in full-stack development, cloud architecture, and embedded systems. AWS Certified Solutions Architect with hands-on expertise in designing scalable, secure, and cost-optimized cloud solutions. Proficient in ASP.NET Core, Blazor, JavaScript, and SQL, with a strong foundation in building enterprise-grade applications. Adept at translating complex business requirements into robust technical solutions that support enterprise digital transformation initiatives.

PROFESSIONAL EXPERIENCE

Software Developer

Holtec International | Pune, Maharashtra | Apr 2024 – May 2026

- Developed and maintained enterprise web applications using ASP.NET Core, ASP.NET MVC, and Blazor, supporting critical business operations in the energy sector.
- Optimized SQL Server queries and stored procedures, reducing report generation time by 35%.
- Developed 10+ RESTful APIs and integrated external services, improving system interoperability across business applications.
- Improved page responsiveness by 30% through optimized JavaScript and component rendering techniques.
- Collaborated with cross-functional teams to gather requirements, conduct code reviews, and deliver scalable solutions that support business transformation goals.
- Applied AWS Solutions Architect principles to infrastructure decisions, advising on scalable deployment strategies and cost-optimized cloud resource usage.

Embedded Software Developer

PHYTEC India | Bengaluru, Karnataka | Aug 2023 – Feb 2024

- Developed firmware and low-level software for embedded systems, demonstrating the ability to work across hardware-software boundaries and understand system architecture holistically.
- Debugged and optimized embedded C code for real-time operating environments, contributing to reliability and performance of IoT and hardware-integrated products.
- Worked closely with cross-functional engineering teams, translating hardware specifications into reliable, maintainable software implementations.

Embedded Software Developer (Internship via SDI Institute)

PHYTEC India | Bhubaneswar, Odisha | Sep 2022 – Feb 2023

- Built security-focused embedded systems including Smart Temperature Control on STM32 and an RFID-based access control system using C programming.

ACADEMIC PROJECTS

■ Emergency Vehicle Traffic System

Designed RFID and IR sensor-based system for automatic emergency vehicle detection at intersections with automated signal control.

■ Smart Street Light Control

Engineered energy-efficient sensor-driven lighting system achieving 40–45% power reduction through intelligent automation.

■ Gym Website

Developed a responsive website with secure authentication mechanisms using HTML5, CSS3, and Git version control.

■ Cricket Scorebook CLI

Built a command-line application in C demonstrating data integrity and real-time data processing.
